

Collection & Authorization Record

BLANK OPERATIONAL TEMPLATE - COMPLETE ONLY WITH ACTUAL FACTS

Job reference	Record reference	Date / time zone
Customer / organization	Authorized contact	
Collection location	Operator	

1 | Received inventory

Asset / batch ID	Device / serial / media	Condition / quantity

2 | Authorized scope and data instructions

Ownership / title terms	Backup responsibility
Count / discrepancies	Custody transfer time
Customer acknowledgment / date	Operator acknowledgment / date

Receipt records custody and scope only. It does not establish sanitization, destruction, recycling, or transfer of legal ownership unless explicitly agreed.

Custody & Media Movement Log

BLANK OPERATIONAL TEMPLATE - COMPLETE ONLY WITH ACTUAL FACTS

Job reference	Record reference	Date / time zone
Customer / origin	Tracked assets / batches	
Media-to-parent mapping / authorization reference		

1 | Custody events - include internal moves and external handoffs

Date / time	Asset / media ID	From > to / event	Operator / evidence

2 | Packaging, condition, discrepancies and unresolved items

Recipient verification / acknowledgment	Reconciliation / operator / date

Internal movements may be performed and checked by the same solo operator. This log is not an independent audit and does not prove downstream processing completion.

Custody & Media Movement Log

ILLUSTRATIVE EXAMPLE - FICTIONAL, NOT EVIDENCE OF COMPLETED WORK

Job reference	Record reference	Date / time zone
SAMPLE-JOB-001	SAMPLE-CUST-001	2026-09-16 / CDT

Customer / origin	Tracked assets / batches
Example Office Ltd.	A001, A002, B001; removed M001

Media-to-parent mapping / authorization reference

SAMPLE-M001 / DEMO-HDD-001 linked to desktop SAMPLE-A001. Customer-retained-media instruction under SAMPLE-AUTH-001.

1 | Custody events - include internal moves and external handoffs

Date / time	Asset / media ID	From > to / event	Operator / evidence
09/15 10:00 CDT	A001, A002, B001	Customer > operator; collection	COL-001 / AUTH-001

Data-Handling Status Record

BLANK OPERATIONAL TEMPLATE - COMPLETE ONLY WITH ACTUAL FACTS

Job reference

Record reference

Date / time zone

Asset / parent ID

Media ID / serial

Device / media type

Authorization reference

1 | Data risk and customer instruction

Data-bearing assessment / sensitivity / restrictions

2 | Actual action and supporting evidence

Method / tool / version / start-end / evidence reference

Result / status

Verification / evidence

Remaining storage, limitations and release decision

Operator / date

Reviewer / independence

Record only demonstrated results. This status form is not a destruction certificate, NIST certification, or proof of successful sanitization. Attach method-specific evidence if sanitization is actually performed.

Data-Handling Status Record

ILLUSTRATIVE EXAMPLE - FICTIONAL, NOT EVIDENCE OF COMPLETED WORK

Job reference	Record reference	Date / time zone
SAMPLE-JOB-001	SAMPLE-DATA-001	2026-09-16 / CDT
Asset / parent ID	Media ID / serial	
SAMPLE-A001	SAMPLE-M001 / DEMO-HDD-001	
Device / media type	Authorization reference	
Desktop / SATA HDD	SAMPLE-AUTH-001	

1 | Data risk and customer instruction

Data-bearing assessment / sensitivity / restrictions

Potentially data-bearing. Customer content not inspected. Customer instructed removal and return of original drive; no file copies, wiping, or destruction authorized.

2 | Actual action and supporting evidence

Method / tool / version / start-end / evidence reference

Drive removed and returned under controlled custody; see SAMPLE-CUST-001. No sanitization tool used and no destruction performed. Method-specific checks not applicable to this return.

Result / status

Returned unsanitized; device on hold

Verification / evidence

Customer media-return acknowledgment

Remaining storage, limitations and release decision

Other persistent storage in the desktop must still be assessed. Reuse, sale, donation and internal deployment blocked until remaining data risk is resolved.

Operator / date

Example operator / 2026-09-16

Reviewer / independence

Same operator; no independent review

Record only demonstrated results. This status form is not a destruction certificate, NIST certification, or proof of successful sanitization. Attach method-specific evidence if sanitization is actually performed.
